

HeartRhythm

THE OFFICIAL JOURNAL OF THE PEDIATRIC AND CONGENITAL ELECTROPHYSIOLOGY SOCIETY

Dear PACES Colleagues

On behalf of the PACES Executive Council, I am extremely pleased to announce our new collaboration with Heart Rhythm Society. In addition to PACES continuing to serve as the official pediatric and congenital partner of HRS, Heart Rhythm will serve as the official journal of PACES as of January 1, 2020.

Some of the highlights of the PACES-Heart Rhythm journal partnership include:

- A Pediatric and Congenital Electrophysiology section will be added to regular issues
- A new Pediatric and Congenital EP News section will be added, highlighting relevant articles in other journals
- A focus issue on Pediatric and Congenital Electrophysiology will be considered on a yearly basis
- Official PACES-sponsored or co-sponsored scientific documents will be submitted to the Heart Rhythm Journal for publication
- Encouraging PACES investigators to submit manuscripts reporting results of PACES-approved studies to Heart Rhythm Journal

We want to thank PACES members for the numerous high quality scientific publications and editorial roles in Heart Rhythm over the past several years. Your contribution has been instrumental in catalyzing this important partnership with an organization that shares our values and vision. This is a great opportunity for our society to consistently bring high-quality Pediatric and Congenital EP research to the global scientific community. Please visit Heart Rhythm at: <https://www.heartrhythmjournal.com>

Best wishes,
